Sheet Metal Cutting and Folding Machine

This machine is designed for cutting and folding sheet metal. It provides efficient and precise processing for various metal fabrication applications.

Product Overview

Professional Sheet Metal Fabrication

This versatile machine is designed for efficient sheet metal cutting and folding operations. Engineered for precision and durability, it streamlines fabrication workflows in industrial and workshop environments. Its robust construction ensures consistent performance for various metalworking tasks.

Technical Specifications

Machine Functionality	Cutting, Folding, Bending

Rooms 05–15, 13A/F South Tower, World Finance Centre, Harbour City, 17 Canton Rd, Tsim Sha Tsui, Kowloon, Hong Kong
