Car Multimedia System with Touchscreen

This car multimedia system features a color screen with full touch operation. It supports navigation while listening to music and includes a high-sensitivity digital tuning AM/FM radio receiver.

Overview

Advanced In-Car Multimedia Experience

This high-performance car multimedia system features a vibrant, full-touch color interface designed for seamless operation. It integrates essential driving tools including high-sensitivity AM/FM radio, built-in GPS navigation with handwriting support, and Bluetooth hands-free connectivity. Engineered for versatility, it supports a wide array of media formats via USB and offers automatic reversing rear-view capabilities for enhanced safety.

Key Features

Core Functionality	Touchscreen Interface, GPS Navigation, Bluetooth Hands-Free, AM/FM Radio, Reversing Camera Support, Handwriting Input
