

0.5-Ton Capacity Transmission Jack

This 0.5-ton transmission jack is designed for removing, installing, and transporting transmissions and transaxles. It features an adjustable saddle for secure support and precise alignment, along with a foot-operated pump for hands-free height adjustments.

Product Overview

Professional Transmission Jack

This 0.5-ton transmission jack is engineered for the safe and efficient removal, installation, and transport of transmissions and transaxles. Featuring robust steel construction, it is designed to withstand the rigors of professional garage and shop environments. With an adjustable saddle and foot-operated pump, this tool ensures precise alignment and hands-free operation for mechanics.
