Digital Luggage Scale with Overweight Indicator

This digital luggage scale is powered by AAA batteries. It is designed to comply with IATA regulations for convenient travel.

Product Overview

Compact Precision Weighing

This high-precision digital luggage scale offers a compact and streamlined design, perfect for travelers requiring reliability on the go. Featuring a durable stainless steel platform and a reinforced belt, it is engineered for both longevity and ease of use. The intuitive target value setting function provides immediate feedback with a red backlight indicator if luggage exceeds your set limit, ensuring compliance with airline regulations.

Technical Specifications

Maximum Capacity	50 kg
Power Source	AAA Batteries
Model Number	EL960H

Features

Core Features

- Stainless steel platform
- Target weight setting function
- Overweight red backlight indicator
- Reinforced carrying belt
- Streamlined ergonomic design

Compliance

Compliance & Standards	IATA Compliant, Design Patent Registered
