

0.6/1kV Control Cable 19x2.5mm² Copper Core PVC Insulated with Copper Tape Screen

This cable is designed for supervisory electrical equipment and station control circuits. It is suitable for indoor and outdoor installation in wet or dry locations, and its metallic armour makes it ideal for areas requiring special mechanical protection.

Product Overview

Professional Control Cable Solution

This 0.6/1kV control cable is engineered for supervisory electrical equipment and station control circuits. It features a robust 19-core design with 2.5mm² copper conductors, offering reliable conductivity for demanding industrial applications. The inclusion of a copper tape screen provides essential electromagnetic interference (EMI) protection, ensuring signal integrity in environments where noise is a concern.

Technical Specifications

Core Configuration

19 Number of Cores	2.5 mm² Cross-section
------------------------------	--

Voltage Rating	0.6/1kV
Conductor Material	Annealed Copper
Insulation Material	PVC (Polyvinyl Chloride)
Screening	Copper Tape
Sheath Material	PVC (Polyvinyl Chloride)

Compliance & Standards

Standards Compliance	IEC 60228, IEC 60227
----------------------	----------------------

Installation & Usage

Suitable Environments

- Indoor
- Outdoor
- Wet locations
- Dry locations
- Conduit
- Duct
- Trench
- Cable tray

Mechanical Protection

Yes

Ordering Information

Minimum Order Quantity

1000 meters
