

0.6L Grind and Brew Coffee Maker with Integrated Grinder

This compact coffee maker grinds and brews fresh coffee directly from beans. It operates quietly at less than 75dB and can also use pre-ground coffee.

Product Overview

Compact Grind and Brew Solution

This 0.6L coffee maker features an integrated grinder, allowing users to brew fresh coffee from either whole beans or pre-ground powder. Designed with a compact footprint, it is perfect for smaller kitchens or office spaces. The unit includes an LCD display for easy operation and is built for simple maintenance and cleaning.
