LED Emergency Exit Sign

This LED emergency exit sign provides clear guidance during emergencies. The sign features a running man symbol and directional arrow, ensuring high visibility in low-light conditions.

Product Overview

Reliable Safety Illumination

This LED emergency exit sign is engineered for maximum reliability in critical situations, utilizing a high-efficiency transformer and constant current/voltage charging technology. It delivers high-brightness illumination via a super-bright LED light source, ensuring visibility during power failures. Housed in a durable aluminum frame, this sign is built for both wall and ceiling mounting, making it an essential safety component for diverse industrial and civil environments.

Technical Specifications

Light Source	Super bright LED
Key Features	High-efficiency transformer, Constant current charging, Constant voltage charging, Long service life

Usage & Applications

Recommended Use

- Factories and warehouses
- Hotels and shopping malls
- Hospitals and airports
- Office buildings
- Safe evacuation channels
- Stair corners

Design & Build

Mounting Type

Wall Mount • Ceiling Mount

Construction Material	Durable aluminum frame
