

0.75kW 3-Phase AC Induction Motor, 1500 RPM, 220/380V

This three-phase asynchronous motor is based on international standards and known for its strong start capacitor. It features stable running, easy maintenance, and a simple structure.

Product Overview

Reliable YS Series Asynchronous Motor

The YS series three-phase asynchronous motor is engineered to meet international standards, offering a robust design for versatile industrial use. Featuring 100% copper wiring and a strong start capability, this motor ensures stable operation and simplified maintenance. It is widely utilized in small to medium power machinery, providing high efficiency for diverse professional applications.

Technical Specifications

Rated Power

0.75 kW
Rated Power

1500 RPM
Rated Speed

Voltage Compatibility

- 220V
- 380V

Frame Size

80

Efficiency Standards

IE1, IE2

Mounting and Construction

Mounting Options

- B3
- B5
- B35
- B14
- B34

Materials

100% copper wire

Compliance

Quality Certifications

CCC • CE • ISO 9001:2015 • GB/T19001-2006
