Overview

Reliable Water Transfer Solution

This 1 HP electric water pump is specifically engineered for the Philippine market, offering robust performance for residential, agricultural, and light industrial applications. It features a durable construction designed for efficient water transfer and pressure boosting, ensuring long-lasting reliability in various environments. The pump is equipped with an automatic pressure switch and is designed for easy installation and maintenance.

Key Features

Service Highlights

Professional Technical Support, Prompt Delivery, Mixed Orders Accepted, DOM Available

Technical Specifications

Compact peripheral pump design suitable for residential water supply and pressure boosting.

Rated Power

1 HP

Power

Impeller Material

Brass

Pressure Switch Settings

- ON: 1.0 kgf/cm²
- OFF: 1.8 kgf/cm²

Electrical Requirements

220V / 60Hz

Model Comparison

Robust jet pump configuration designed for high-efficiency water transfer and irrigation.

Pump Series Specifications

Model Series	Power (HP)	Stator Length	Impeller
QB60-L	0.5	63#L50	Brass
QB70-L	0.75	71#L60	Brass
QB80-L	1	71#L75	Brass
JSW-60	0.5	63#L65	Brass
JSW-100	1	71#L70	Brass
JSW-200	2	80#L100	Brass

Applications

Recommended Applications

- Residential water supply
- Agricultural irrigation
- Light industrial use
- Pressure boosting systems
- General purpose water transfer
