

1-Ton Capacity Chain Block

This chain block is a robust lifting tool designed for heavy-duty applications. Featuring a C-Type chain block mechanism, this device is capable of lifting up to 1 ton.

Product Overview

Robust Lifting Solution

The Chain Block-NT Type is a robust lifting tool designed for heavy-duty applications. Constructed with durable materials, it ensures reliability and safety in various industrial environments. This device is engineered for smooth and efficient operation, making it an essential tool for lifting and positioning heavy loads.

Technical Specifications

Rated Capacity

1 Ton
Capacity

Mechanism Type

C-Type Chain Block

Ideal For

Heavy-duty lifting, Industrial environments, Load positioning
