

10-50kW Diesel Generator Set

This diesel generator set provides stable output with its ECU governor and offers good heat dispersion via its water-cooled or air-cooled system. Its compact structure and light weight contribute to fuel efficiency.

Overview

Reliable Power Solutions (10-50kW)

This series of diesel generator sets offers a versatile power range from 10kW to 50kW, designed for stable and continuous output in demanding environments. Featuring advanced ECU governors and efficient cooling systems, these units provide steady rotation speeds and excellent heat dispersion. Their compact, lightweight structure combined with fuel-saving technology makes them an ideal choice for professional B2B applications requiring portable or stationary power.

Technical Features

Key Benefits

- Stable rotation speed
- Compact structure
- Lightweight design
- Fuel-saving efficiency
- Good heat dispersion

Cooling System

Water-cooled, Air-cooled

Governor Type

ECU Governor
