

10-Inch Aluminum Torpedo Level with Magnetic Strip

This 10-inch torpedo level is made from aluminum, ensuring accuracy and durability. It includes three vials for plumb, level, and 45-degree readings, plus a magnetic strip for attachment to metal surfaces.

Product Overview

Professional Grade Torpedo Level

This 10-inch torpedo level is constructed from durable cast aluminum, providing long-lasting accuracy and reliability for professional and DIY use. It features three highly visible vials capable of measuring plumb, level, and 45-degree angles, ensuring versatility across various construction tasks. Equipped with two strong integrated magnets, this tool allows for convenient hands-free operation on metal surfaces.
