

10-Inch Automotive Subwoofer

This 10-inch subwoofer is designed for automotive audio systems. It features a reinforced cone and durable surround for enhanced bass response and longevity.

Product Overview

High-Performance Bass Solution

This 10-inch automotive subwoofer is engineered for professional-grade low-frequency sound reproduction, delivering deep and impactful bass. It features a robust, reinforced cone and durable surround designed to maintain longevity even under high-demand audio conditions. With an optimized motor structure and high-temperature voice coil, it ensures efficient heat dissipation and reliable performance for diverse car audio system setups.

Technical Specifications

Driver Diameter	10 inches
Key Features	Reinforced Cone, High-Temperature Voice Coil, Optimized Motor Structure, Durable Surround

Compatibility

System Compatibility

- Multiple amplifier configurations
- Versatile enclosure designs
