

10-Inch Magnetic Torpedo Level

This 10-inch torpedo level is a compact tool for precise leveling in multiple applications. It features three vials for horizontal, vertical, and 45-degree measurements and includes a magnetic strip for attachment to metal surfaces.

Product Overview

Compact Precision Leveling

The 10-Inch Magnetic Torpedo Level is a versatile measuring tool designed for high-accuracy leveling in professional environments. Featuring three high-visibility vials, it allows for precise horizontal, vertical, and 45-degree measurements even in tight spaces. Its robust, impact-resistant construction and integrated magnetic strip ensure reliable performance and hands-free operation on metal surfaces.

Technical Specifications

Vial Accuracy

1 mm/m
Accuracy

Length	10 inch
Number of Vials	3

Key Features

Core Benefits

- Magnetic strip for secure hands-free operation
- High-visibility vials for clear readings in various lighting
- Impact-resistant frame for job site durability
- Compact design for portability and use in tight spaces

Measurement Angles	Horizontal, Vertical, 45-Degree
Magnetic Base	Yes

Construction

Build Quality

Impact-Resistant • Durable Frame • Professional Grade
