

10-Inch Tempered Steel Tin Snips

These tin snips feature 10-inch tempered hardened blades. They are designed for cutting stainless steel, aluminum, copper, nickel, and zinc.

Product Overview

Professional Grade Tin Snips

These 10-inch expert tin snips are engineered for precision and durability, featuring drop-forged carbon steel blades that have been heat-treated for superior cutting performance. Designed with user comfort in mind, the tool includes anti-slip bi-color vinyl grip handles to ensure stability during use. They are an ideal choice for cutting various metals, making them a versatile addition to any professional toolkit.
