

10-Liter Thermoelectric Mini Cooler and Warmer

This thermoelectric cooler and warmer has a 10-liter capacity and is suitable for use in the office, at home, or in the car. It cools to 20-25°C below ambient temperature and heats to 60±5°C, with LED indicators for cooling or warming status.

Product Overview

Versatile Thermoelectric Solutions

The 10-liter thermoelectric cooler and warmer is an egg-shaped portable unit designed for versatile use in offices, homes, or vehicles. Featuring both cooling and heating capabilities, it provides reliable temperature control for beverages and perishables. With its 10-liter capacity, it can even accommodate 2-liter bottles upright, making it a highly practical choice for professional and personal cooling needs.
