

10-Piece Deep Impact Socket Set, 1/2-Inch Drive

This 10-piece deep impact socket set features a 1/2-inch drive. Constructed from chrome vanadium steel, the sockets are heat treated for enhanced durability and come in sizes from 10mm to 24mm.

Overview

Professional Grade Impact Sockets

This 10-piece deep impact socket set is engineered for high-torque applications, featuring a standard 1/2-inch drive compatible with most impact wrenches. Constructed from high-quality chrome vanadium steel and fully heat-treated, these sockets are designed to withstand rigorous use in demanding environments. The black finish provides added corrosion resistance, while the deep socket profile allows for better access to recessed fasteners.
