Overview

Heavy-Duty 10-Ton Truck with Crane

This heavy-duty 10-ton truck is engineered for demanding industrial and construction applications, combining robust transportation capabilities with an integrated hydraulic crane. Designed for efficiency, it features a spacious flatbed for cargo transport and a powerful engine to handle heavy loads. With its versatile lifting and loading functionality, this vehicle is an ideal solution for logistics operations, infrastructure projects, and material handling tasks requiring precision and stability.

Vehicle Dimensions

Overall Dimensions	11945 × 2500 × 3750
Cargo Box Dimensions	8200 × 2294 × 550

Performance Metrics

Curb Weight	13900 KG
Max Loading Capacity	30000 KG
Max Gradability (Full Load)	28 DEG

Key Specifications

Engine Power

240 HP

Engine Horsepower

Crane Lifting Capacity

4 Tons
