

# 10000mAh Portable Power Bank with Digital Display

This compact power bank has a 10000mAh capacity for mobile charging. It features a digital display to show the remaining power and offers multiple safety protections.

## ADDITIONAL IMAGES

## Product Overview

### Compact Power for On-the-Go Professionals

This portable power bank is designed for reliability and convenience, featuring a high-capacity lithium polymer battery housed in a lightweight, slim form factor. With a built-in digital display, users can monitor remaining power levels in real-time, ensuring devices stay charged during travel or fieldwork. The unit includes a multipotent safety system to protect against over-charging, over-discharging, and short circuits, making it a safe and efficient choice for smartphones and tablets.

## Technical Specifications

Battery Capacity Options	10000mAh, 20000mAh
Battery Chemistry	Polymer Lithium battery
Input Specifications	5V/2.1A (Micro)
Output Specifications	5V/2.1A (2 x USB ports)

## Physical Dimensions

### Size Comparison

Capacity	Dimensions
10000mAh	137 x 67 x 15mm
20000mAh	138.5 x 70 x 27mm

## Safety & Features

### Safety Protections

Over-charge protection • Over-discharge protection • Over-voltage protection • Over-current protection • Short circuit protection

### Key Features

- Digital battery percentage display
- Fast charging support up to 2.1A
- Textured surface for enhanced grip
- Lightweight and portable design
