

1000W Modified Sine Wave Power Inverter

This 1000W modified sine wave inverter converts DC power from a 10.5-15V source into 230V AC power at 50Hz. It also features a 5V DC 1100mA USB port for charging mobile devices.

Product Overview

Portable Power Solution

This 1000W modified sine wave power inverter is a versatile solution for converting DC battery power into usable AC power for your electronic devices. Designed for portability, it is ideal for automotive use and outdoor activities where reliable power is needed on the go. The unit features robust construction and comprehensive safety protections to ensure safe and efficient operation for a wide range of small electronics and appliances.

Electrical Specifications

Supported Output Voltages

- 100V
- 110V
- 120V
- 220V
- 230V
- 240V

Continuous Output Power	1000 W
Peak Output Power	2000 W
Input Voltage Range	10.5-15V DC
Output Waveform	Modified Sine Wave

Features & Protection

Connectivity

- 2 x 12V Round Sockets
- 1 x 5V 2.1A USB Port

Construction

Heavy Metal Case • Replaceable Fuse

Safety Protections

Reverse Polarity Protection, Overload Protection, Overheat Protection, Output Short Circuit Protection, Low Voltage Automatic Shutdown
