

1000W Stand Mixer with 5L Stainless Steel Bowl

This stand mixer features a robust 1000W motor and a durable 5L stainless steel mixing bowl. It offers multiple speed settings and includes attachments such as a whisk, dough hook, and beater for versatile mixing tasks.

Product Overview

Professional Performance Mixer

The 1000W Stand Mixer is a high-performance kitchen essential designed for efficiency and durability in professional or commercial environments. Equipped with a generous 5L stainless steel bowl and six precise speed settings, it effortlessly handles everything from heavy dough kneading to delicate whipping. The tilt-up head design and suction-cup base ensure both ease of use and maximum operational stability during intensive mixing tasks.
