

100cc Step-Through Motorcycle

This step-through motorcycle offers a compact and efficient transportation solution. Its design facilitates easy mounting and dismounting, making it suitable for urban commuting and short trips.

Overview

Compact Urban Commuter

This 100cc step-through motorcycle is designed for efficient and convenient urban transportation. Its accessible step-through frame ensures easy mounting and dismounting, while the fuel-efficient engine balances reliable performance with economy. Equipped with practical storage solutions like a front basket and rear carrier, it is an ideal choice for daily commuting and short trips.
