

100kg Commercial Laundry Washing Machine

This commercial washing machine is designed for hotel laundry operations with a 100kg capacity. It features a stainless steel drum and a control panel for automated washing cycles.

General Overview

Industrial Efficiency

This BX series commercial washing machine features a robust horizontal structure designed for high-volume operations in hotels, restaurants, and professional laundry plants. Built with a high-quality stainless steel drum and frame, it ensures durability and long-term reliability even in demanding environments. The unit supports both steam and electrical heating, offering flexibility to match your facility's infrastructure.

Certifications

CE • ISO 9001
