

# 100KVA Diesel Generator Set

This generator set provides a reliable source of electric power for various applications. It features a robust enclosure for noise reduction and weather protection.

## ADDITIONAL IMAGES

## Overview

### Reliable Power Generation

This 100KVA Diesel Generator Set is engineered for consistent performance in industrial, commercial, and residential environments. Featuring a robust enclosure for noise reduction and weather protection, it is designed to serve as both a reliable backup power source and a primary power solution for remote locations. The system ensures stable voltage and frequency output, making it suitable for powering sensitive electronic equipment.

## Performance Metrics

### Rated Power Output

**100 KVA**  
Power Output

Noise Level: 80 dB

## Technical Specifications

Power Factor	0.8 lag
Connection Method	Three-phase & four-wire

## Operational Capabilities

Overload Allowance: 10% overload permitted for 1 hour per 12 hours of continuous operation

## Customization Options

Available Customizations: Single-phase, 60Hz frequency, Custom voltage ranges
