

100L Oil-Lubricated Piston Air Compressor

This oil-lubricated piston air compressor is designed for applications requiring compressed air. It features a 100L horizontally oriented tank, motor, pump, pressure regulator, safety valve, wheels, and handle.

Product Overview

Professional Air Compression Solution

This 100L oil-lubricated piston air compressor is designed for demanding professional environments requiring reliable compressed air. Featuring a horizontal tank design for enhanced stability, it is equipped with wheels and a handle for easy mobility across workshops. The unit includes essential safety features like a protective fan cage and integrated pressure regulation, making it a versatile choice for pneumatic tools and general maintenance tasks.

Technical Specifications

Maximum Pressure

10 bar

Bar

145 psi

PSI

Tank Capacity	100 L
Max Air Capacity	350 l/min
Power Supply	230 V

Physical Characteristics

Weight	66 kg
Model Number	YT-23220

Features

Key Features	Oil-Lubricated, Piston Type, Portable, Horizontal Tank
