

100mm Angle Grinder

This angle grinder is a robust and efficient tool designed for grinding, cutting, and polishing various materials. Its ergonomic design ensures comfortable handling and precise control, while the powerful motor delivers consistent performance for demanding tasks.

Overview

Professional Performance

This 100mm angle grinder is a robust and efficient tool engineered for demanding industrial tasks including grinding, cutting, and polishing. Its ergonomic design prioritizes user comfort and precise control, making it suitable for professional applications in metalworking, construction, and maintenance. Built with durable materials, it ensures consistent performance and long-lasting reliability in rigorous work environments.

Technical Specifications

Disc Diameter	100 mm
Primary Applications	Metalworking, Construction, Maintenance, Grinding, Cutting, Polishing

Features

Key Design Features

- Ergonomic handle for comfortable operation
- High-torque motor for consistent power delivery
- Durable construction for industrial use
- Enhanced control for precision tasks
