

100W LED High Bay Light with Spherical Lens

This 100W LED high bay light is suitable for large indoor spaces such as warehouses and factories. It is also used in government projects, business areas, and transportation hubs.

Overview

High-Efficiency Industrial Lighting

This 100W LED High Bay Light is engineered for demanding industrial and commercial environments, such as warehouses and factories. It utilizes a specialized spherical lens to achieve optimal light distribution and features a robust aluminum die-casting design for superior thermal management. With an IP65 protection rating, this fixture ensures durability and consistent performance in various indoor conditions.

Electrical Specifications

Protection Rate

IP65

Rated Voltage

100~240VAC / 50~60 Hz

Power Factor

0.95

Performance Metrics

Performance Highlights

100 W

Wattage

40000 hrs

Lifespan

120 °

Beam Angle

Environmental

Temperature Tolerance

- Ambient Temp: -20°C to 40°C
- Storage Temp: -40°C to 65°C

Construction

Materials

Aluminum Die Casting, Tempered Glass
