

100W Off-Grid Monocrystalline Solar Panel

This 100W monocrystalline solar panel is designed for off-grid use. It provides reliable power for battery charging and small appliances, featuring a durable aluminum frame.

Product Overview

High-Efficiency Off-Grid Power Solution

This 100W monocrystalline solar panel is engineered for reliable power generation in off-grid environments. Built with high-quality components, it ensures consistent performance across various weather conditions. Its durable aluminum frame supports easy mounting, making it an ideal choice for battery charging, remote power systems, and powering small appliances.

Electrical Characteristics

Rated Power

100 W
