

# 105x1.2x16 mm Straight Cutting Disc

This straight cutting disc is made from quality abrasive materials, ensuring good self-sharpening and hardness. It is optimized for precision and efficient cutting performance.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Straight Cutting Disc

This resin-bonded abrasive cutting disc is engineered for precision and efficiency in demanding industrial environments. Constructed with a blend of aluminum oxide or silicon carbide, reinforced with fiberglass mesh, it offers superior durability for cutting applications. It is an ideal solution for professionals working in machinery, automobile manufacturing, construction, and shipbuilding sectors.

## Technical Dimensions

Outer Diameter	105 mm
Thickness	1.2 mm
Bore Size	16 mm

## Performance Metrics

### Maximum Operating Speed

**80 m/s**

Max Speed

**14500 RPM**

Max RPM

Abrasive Material	Aluminum Oxide, Silicon Carbide
-------------------	---------------------------------

## Application & Compliance

### Suitable Industries

- Machinery
- Automobile
- Construction
- Shipbuilding

### Compliance Standards

41-A/F46P-BF • A6004BF
