

107cc Air-Cooled Four-Stroke Motorcycle

This motorcycle has a 107cc, air-cooled, four-stroke, one-cylinder engine. It is a compact and efficient transportation solution designed for urban environments.

Overview

Compact Urban Commuter

This 107cc air-cooled four-stroke motorcycle is engineered for efficiency and reliability in urban environments. Featuring a robust chassis and a fuel-efficient design, it offers a practical transportation solution for daily commuting and short-distance travel. With a balance of power and maneuverability, it is designed for ease of maintenance and long-term durability.

Engine & Performance

Performance Metrics

4.6 kW

Max Power

6.5 Nm

Max Torque

75 kph

Top Speed

Engine Type 107cc, air-cooled, four-stroke, one cylinder

Fuel Efficiency 1.9 L/100km
