Overview

Autonomous Security Solution

This 1080P Starlight 4G Solar-Powered Security Camera offers a completely wireless, eco-friendly surveillance solution designed for remote areas or locations without existing power infrastructure. With its IP67-rated weather-resistant housing and solar energy harvesting, it provides reliable, low-maintenance monitoring in harsh environments. The system features advanced motion detection and 4G connectivity, ensuring you stay connected to your property via mobile alerts and real-time video access without needing Wi-Fi.

Imaging & Performance

Imaging Performance

1080 P

Resolution

10 m

IR Night Vision

4 mm

Lens Focal Length

Video Specifications

Format	Frame Rate
1920*1080	15fps
640*360	30fps

Connectivity & Power

Power System

- Solar Charging
- 4x 18650 Rechargeable Lithium Batteries
- USB Charging (approx. 6 hours for full charge)

Network Connectivity

4G SIM Card, No Wi-Fi Required, P2P Support

Battery Life

Approximately 10 days without sunshine

Environmental & Durability

Ingress Protection

IP67 Waterproof • Lightning-proof • Moisture-resistant

Operating Conditions

Parameter	Range
Temperature	-10 ~ +50
Humidity	d80%RH

Smart Features

Alerts & Detection

- PIR Human Detection
- Automatic Wake-up on Motion
- Mobile App Notifications
- Full Duplex Intercom

Storage Capacity

64 GB
