Overview

High-Performance Vehicle Monitoring

This 1080P IP camera is engineered for demanding vehicle surveillance environments, featuring a robust IP69K waterproof rating and advanced night vision capabilities up to 10 meters. It utilizes cutting-edge digital transmission technology to deliver high-quality images with automatic white balance and exposure adjustment for superior color accuracy. Designed for durability, the unit is anti-vibration rated to ISO 16750-3 standards, ensuring reliable performance in harsh mobile conditions.

Key Metrics

Imaging Performance

1080 P

Resolution

130 °
