

1080P WDR IP69K Waterproof Vehicle Front Camera

This waterproof auto front camera features 1080P high definition, WDR, and night vision. The IP69K waterproof rating guarantees complete protection against dust and high-pressure, high-temperature water jets.

Overview

High-Performance Vehicle Surveillance

This 1080P high-definition vehicle front camera is engineered for robust and reliable video capture in demanding automotive environments. Featuring advanced Wide Dynamic Range (WDR) technology, it maintains clear image quality even in high-contrast lighting conditions. With an IP69K waterproof rating, the unit offers maximum protection against dust and high-pressure water jets, making it an ideal solution for vehicle surveillance systems.
