Overview

Compact Power for Tight Spaces

This 10.8V cordless ratchet wrench is engineered for efficiency in confined areas where manual tools are cumbersome. Powered by a reliable lithium-ion battery, it provides the freedom of cordless operation without sacrificing torque. Designed for automotive repair, assembly, and maintenance tasks, it features variable speed control and an integrated LED work light to ensure precision and visibility in any environment.

Key Features

Key Features

- Cordless design for maximum mobility
- Variable speed trigger for precise fastening
- Integrated LED work light for dark areas
- Forward/Reverse switch for easy operation
- Ergonomic handle to reduce user fatigue
