Product Overview

Versatile Cordless Performance

This 10.8V cordless rotary polisher and sander is engineered for professional surface preparation, offering a perfect balance of portability and power. Its compact, ergonomic design ensures superior maneuverability and comfort during extended use, making it ideal for automotive detailing and woodworking. With variable speed control, users can achieve precise results across a wide range of materials and applications.

Technical Specifications

Voltage	10.8 V
Operation Type	Cordless
Speed Control	Variable speed settings

Applications

Primary Applications	Automotive Detailing, Woodworking, Surface Preparation
----------------------	--

Design Features

Key Features

- Compact and lightweight design
- Ergonomic handling for maneuverability
- Freedom of movement without power cords
- Efficient material removal
- Smooth finish capability
