

10G Ethernet SFP+ to UTP Media Converter

This 10G Ethernet media converter enables conversion between SFP+ to UTP, and XFP to UTP. It supports multiple data rates for flexible integration within existing network infrastructures.

Payment
T/T by bank is our preferable payment method. we also accept different payments, such as: L/C, Western Union, Paypal and Escrow

T/T LC WESTERN UNION Paypal ESCROW

Shipment
Lead time based on our strong production capacity normally the product can ready within 3 days if the qty of the order is more than 500pcs maybe we need a little more time. Delivery methods big order could be by sea or air small volume could be by Express. IS@MERHEIN.COM

Warranty
All products have been checked and packed in good condition after our serious QC test if you have any question pls feel free to contact us we would get it solved in limited time and our service would make you trust us.
3 years normal warranty is provided

Remark
we answer all your inquiries in 8hours or less guaranteed pls feel free to contact us below

Product Overview

High-Performance 10G Connectivity

This 10G Ethernet SFP+ to UTP media converter is designed for seamless signal conversion between optical and electrical networks. It functions as a high-performance optical-electrical-optical converter and multi-rate repeater, ensuring reliable data transmission in demanding environments. This device is ideal for extending network distances and providing flexible integration into existing 10G infrastructure.
