

10kg Industrial Sample Washing Machine

This 10kg sample washing machine is designed for industrial and laboratory use. Constructed from stainless steel, it features a rotating drum for efficient cleaning and processing of samples.

Product Overview

Industrial Washing Series

The BX series represents a robust range of semi-automatic, horizontal industrial washing machines designed for high efficiency and low consumption. Constructed with high-quality stainless steel drums and frames, these machines are engineered for durability in demanding environments such as hotels, restaurants, and professional laundry facilities. They offer flexible heating options, including steam or electrical, to suit various operational requirements.

Certifications	CE, ISO 9001
Packaging	Wooden box

Technical Specifications

Heating Options

Steam • Electrical

Structure Type	Horizontal
Operation Mode	Semi-automatic

Model Comparison

Model Specifications

Model	Capacity (kg)	Drum Size (mm)	Speed (r/min)	Weight (kg)
BX-15	15	∅540*680	46	260
BX-30	30	∅660*800	35	380
BX-50	50	∅800*980	35	500
BX-70	70	∅950*1220	34	850
BX-100	100	∅960*1420	34	950
BX-150	150	∅1060*1650	34	1050
BX-200	200	∅1080*2000	32	1450
BX-250	250	∅1200*2280	29	1900
BX-300	300	∅1300*2280	29	2300
BSX-400	400	∅1220*3360	29	2800

Applications

Suitable Industries

- Hotels
- Restaurants
- Laundry Houses
- Water Washing Plants
- Garment Manufacturing
- Fabric Processing
- Apparel Industry
