

10kW Electric Power Generator

This 10kW dynamo generator is designed for efficient power generation. It is suitable for various applications requiring a reliable electric power source.

Overview

High-Performance 10kW Power Generation

This 10kW electric power generator is engineered for reliable and consistent energy conversion, making it an ideal solution for industrial, commercial, and residential applications. Featuring a robust metallic housing, the unit is built for durability and stable performance under demanding conditions. With versatile voltage and frequency options, it provides flexible power support for a wide range of equipment and operational needs.

Technical Specifications

Rated Power

10 kW

Rated Power

Phase Configuration

Single Phase • Three Phase

Rated Voltage	115V, 230V, 400V
Rated Frequency	50Hz, 60Hz
Rated Rotation Speed	3300 r/min
Generator Type	Brush
