Overview

High-Performance 10mm Electric Drill

This 400W electric power drill is designed for precision and durability in professional and DIY applications. It features a two-stage driving gear design to maximize torque, alongside a variable speed trigger with reversing capabilities for versatile operation. The ergonomic handle and lightweight build ensure comfortable use during extended tasks, while the integrated labyrinth airflow system protects internal components from abrasive dust.

Technical Specifications

Input Power

400 W

Rated Power

No-load Speed	1500 r/min
Chuck Capacity	10 mm
Voltage	220-240V ~50/60Hz
Net Weight	1.5 kg

Drilling Capacities

Maximum Drilling Capacities

Material	Max Diameter
Steel	10mm
Aluminum	13mm
Wood	20mm

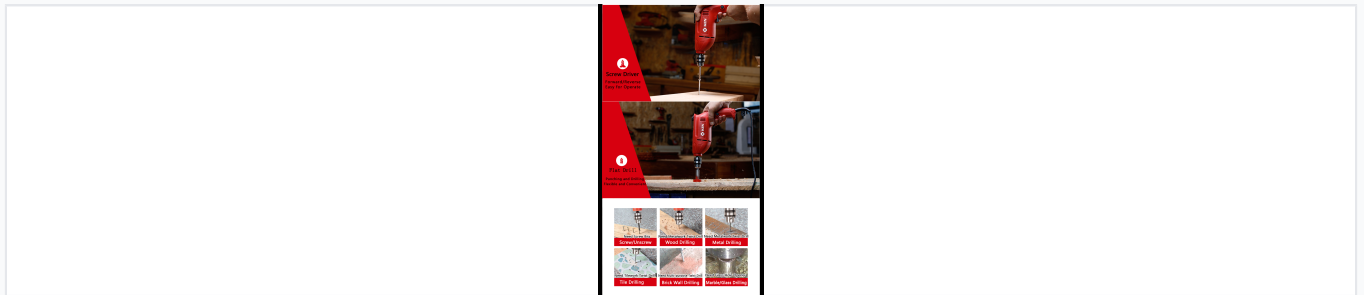

Key Features

Operational Features

- Variable speed trigger with reversing function
- Two-stage driving gear design for enlarged torque
- Labyrinth air flow design to prevent dust ingress
- Trigger with lock-on function for constant operation
- Integrated belt buckle for easy portability
- Ergonomic handle for improved grip comfort

Applications

Suitable Applications

Screw Driving, Flat Drilling, Metalworking, Woodworking, Tile Drilling, Brick Wall Drilling

Package Contents

Included Accessories

- Chuck Wrench
- Spare Carbon Brush
- Color Box Packaging
