

11 x 4.5 Inch Notched Trowel for Tile Installation

This notched trowel is suited for spreading adhesives or thinset mortar evenly on surfaces. Its notches create ridges of adhesive, ensuring proper coverage for tile and flooring installation.

Product Overview

Professional Tiling Tool

This 11 x 4.5 inch notched trowel is engineered for precise adhesive and thinset mortar application during tile and flooring installations. Featuring a mirror-polished, rust-resistant stainless steel blade, it offers both durability and consistent performance. The tool is equipped with a lightweight aluminum alloy mounting and an ergonomic anti-turn soft grip handle to minimize user fatigue during extended professional use.
