

# 11.00-16 F2 Agricultural Tire

This agricultural tire is designed for tractors and farm implements. Its F2 tread pattern ensures optimal traction and durability in field conditions, making it suitable for front axle applications.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Agricultural Tire

This 11.00-16 F2 agricultural tire is engineered for reliability and durability in demanding farm environments. Featuring an optimized rib tread pattern, it provides excellent steering control and stability for tractors and farm implements. Constructed with robust materials, this tire is designed to resist punctures and wear, ensuring a long service life during field operations.

## Technical Specifications

Tire Size	11.00-16
Tread Pattern	F2
Key Features	Rib Pattern, Steering Optimized, Puncture Resistant, High Stability

## Application

### Suitable Applications

- Tractors
- Farm Implements
- Front Axle Applications
- Agricultural Terrain
