Product Overview

High-Performance 1100W Angle Grinder

The 9910G-2 is a professional-grade angle grinder engineered for demanding grinding, cutting, and descaling tasks. Powered by a robust 1100W Hurricane Motor, it offers high anti-overload resistance and a rapid 13,000 RPM start-up speed to maximize job site efficiency. Its ergonomic 180mm slim body design ensures comfortable one-handed operation, even during extended use or in confined spaces.

Technical Performance

The Hurricane Motor and Shark Gill cooling design ensure high performance under heavy loads.

Key Performance Metrics

1100 W

Rated Power

13000 r/min

No-Load Speed

100 mm

Disc Diameter

Spindle Thread

M10

Net Weight

1.5 kg

Design & Durability

Cooling Technology	Shark Gill design increases air inlet area by 30% for high-efficiency heat dissipation.
Motor Protection	Auto-stop carbon brush system extends motor working life by approximately 20%.
Ergonomics	180mm slim body for easy one-hand operation and access to narrow spaces.

Safety & Operation

Switch Mechanism	2-stage side switch designed to prevent accidental false starts.
Safety Components	Metal Protective Guard, Durable Head Housing, High Overload Resistance

In the Box

Standard Accessories

- Side Handle
- Wrench
- Protective Guard
- Carbon Brush Set

Applications

Primary Applications

Grinding • Cutting • Descaling • Polishing
