

110cc Underbone Motorcycle

This 110cc underbone motorcycle features good acceleration and an upgraded suspension system. It is designed for reliable and efficient urban transportation.

Overview

Urban Commuting Redefined

This 4th generation 110cc underbone motorcycle is engineered for convenience, economy, and reliability in daily city transportation. Featuring a responsive 4-stroke air-cooled engine, it balances fuel efficiency with smooth acceleration for a comfortable riding experience. With a robust build, including stainless steel fasteners and dual-stage paint treatment, it offers a durable and practical solution for urban mobility.

Performance & Engine

Engine Performance

110 cc

Displacement

5.4 kW

Power Output

85 km/h

Max Speed

Fuel Efficiency

90 MPG

Transmission

CVT Automatic

Safety & Braking

Braking System

Position	Type
