Overview

High-Performance 1500W Marble Cutter

This 110mm marble cutter is engineered for professional-grade stone fabrication, featuring a robust 1500W motor designed for high efficiency and durability. It offers versatile cutting capabilities with an adjustable base for 45-degree beveling and a tool-free depth adjustment system for precision work. Built for comfort and safety, the tool includes an ergonomic TPE handle and a splash baffle to manage dust and water during intensive cutting tasks.

Performance Metrics

Detailed view of the 1500W marble cutter featuring a 34mm maximum cutting depth and ergonomic controls.

Key Performance Indicators

1500 W

Rated Power

13000 r/min

No-load Speed

110 mm

Disc Diameter

Cutting Capabilities

Cutting Specifications

Angle	Max Cutting Depth
90°	34mm
45°	21mm

Design & Ergonomics

Engineering highlights including the 45-degree cutting capability and high-efficiency power system with 200°C heat resistance.

Design Features

- TPE Ergonomic handle design for reduced user fatigue
- Self-locking switch for continuous operation
- Widened base-board for improved support and stability
- Tool-free depth adjustment mechanism
- Splash baffle for dust and water control
- Compound fan for enhanced heat dissipation

Technical Specifications

Motor Insulation Class	200°C Class Anti-Heat Level
Maximum Disc Compatibility	Supports up to 125mm discs
Net Weight	3.3 kg

Maintenance & Safety

Maintenance & Safety	Outside Carbon Brushes, Safety Guard, Water Cooling System Compatible, Easy Carbon Brush Change
