

110mm Stone Cutter

This 110mm stone cutter is designed for cutting marble, granite, tile, and other stone materials. It features a robust motor for efficient cutting and a durable construction for long-lasting performance.

Overview

High-Performance 110mm Stone Cutter

This powerful 110mm Marble Cutter is engineered for professional stone fabricators and tile installers requiring precision and durability. It features a robust motor capable of efficient cutting through marble, granite, and tile, supported by an integrated water cooling system to manage dust and prolong blade life. The tool's ergonomic design and adjustable settings ensure versatile performance across various construction applications.

Performance Metrics

Key Performance Metrics

110 mm
Blade Diameter

Technical Features

Adjustability

- Adjustable cutting depth
- Adjustable cutting angle

Cooling System

Integrated water cooling system for dust reduction and blade longevity

Design & Safety

Safety Features

Safety Guard • Dust Reduction

Ergonomic Design

Equipped with an ergonomic handle for comfortable long-term operation

Applications

Recommended Users

- Professional stone fabricators
- Tile installers
- Construction workers

Suitable Materials

Marble, Granite, Tile, Stone
