

1130cc Inline Three-Cylinder Sportbike

This sportbike features a 1130cc inline three-cylinder, four-stroke, liquid-cooled engine with four valves per cylinder and a double overhead camshaft. It delivers a maximum power of 116 kW (157.8 hp) at 10200 rpm and a maximum torque of 120 Nm (12.2 kgm) at 8400 rpm.

Overview

High-Performance Engineering

The 1130cc inline three-cylinder sportbike is designed for riders who demand uncompromising performance on both the street and the track. Featuring a sophisticated steel trellis frame with aluminum plates and high-end suspension, it provides exceptional agility and stability. With a powerful 157.8 HP engine and race-ready braking systems, this machine balances raw power with precision control.
