# 115mm Angle Grinder for Cutting and Grinding

The 115mm angle grinder is a versatile tool for grinding, cutting, and polishing. Its robust motor delivers high performance, and its compact design ensures comfortable handling.

## Product Overview

### Versatile 115mm Angle Grinder

This powerful 115mm angle grinder is engineered for high-performance grinding, cutting, and polishing across various materials. Its robust motor is designed to handle demanding applications in metalworking and construction while maintaining a compact, ergonomic profile. Safety and efficiency are prioritized with features like a spindle lock for rapid disc changes and a two-stage power switch.

## Performance Metrics

**Performance Highlights**

**115 mm**
Disc Diameter

## Technical Features

**Safety & Control**

- Two-stage power switch to prevent accidental starts
- Adjustable wheel guard for user protection
- Spindle lock for quick disc changes
- Ergonomic grip for precise control

## Applications
