Overview

Premium 12-Bottle Storage Solution

This thermoelectric wine cooler is designed to store up to 12 standard-sized bottles in optimal conditions, making it an ideal choice for both personal use and professional hospitality environments. Featuring a sleek metal box construction with a glass door and digital touch screen controls, it offers a modern aesthetic that complements any setting. The thermoelectric system ensures quiet, vibration-free operation to preserve the delicate sediment and flavor profiles of your wine collection.
