

12-Cup Electric Drip Coffee Maker with Glass Carafe

This electric coffee maker brews up to 12 cups of coffee. It features a transparent carafe, pause function, permanent filter, water window, keep warm function and non-stick hot plate.

Product Overview

Efficient Brewing Solution

This 12-cup electric drip coffee maker offers a reliable solution for brewing large quantities of coffee with ease. Designed with a transparent glass carafe and a clear water window, it allows for precise monitoring of your brewing process. The inclusion of a non-stick warming plate and a reusable permanent filter ensures that your coffee stays at an ideal temperature while reducing the need for paper filters.
