

# 1/2" Drive Metric Deep Wall Impact Socket Set

This set includes 16 sockets ranging from 10mm to 32mm, along with a blowmold case. The sockets are made of chrome vanadium steel.

## Overview

### Professional Grade Impact Socket Set

This 16-piece 1/2" drive metric deep wall impact socket set is engineered for high-torque applications with impact wrenches and drivers. Constructed from durable chrome vanadium steel, these sockets feature a deep wall design to easily reach fasteners in recessed or hard-to-access areas. This comprehensive set is an essential tool for automotive repair, construction, and heavy-duty industrial maintenance.
